## Crafty Extras:

- The art light is simply the Brass Desk Lamp (#2708) mounted on the vertical wall surface instead of a horizontal desk surface.
- The Parquet Floor Strips (#7419) were finished with Minwax's Natural #209 stain.
- The 1/24 Scale Door/Window Casing (#H7041) was used to make the trim. The upper panel is 3" wide and 6" tall (measured to the outside edge). The lower panel is 3" wide and 2" tall. The spacing between all elements is 1/4". The walls and ceiling are painted in Behr's flat Tawny Mushroom PPG1054-5.
- The nobs on the Greyson Counter (#42634) were replaced with the Pair of Ring Drawer Pulls (#83072). Simply cut off the nobs and drill holes through to the other side where the nobs used to be. Use a drill bit that is the same size or slightly smaller than the prong on the pulls. Glue one pull in each hole.
- The umbrella in the 4-Pc. Umbrella, Walking Stick and Hat Set (#22709) was embellished with Liquid Chrome Marker (#57031) on the tip and brown deck stain on the handle.
- The painting is available as a free Printie. Print the file and cut out the image. Then place it in the frame.
