Crafty Extras:

- Decorative trim was added to the front surface of the white window box (#49001). This was done by measuring the width and height of the window box. Then four pieces were cut from the 1/24 Scale Door/Window Casing (#H7041) - two equal to the width and two equal to the height. All ends were cut at a 45° bevel. The pieces were glued to the front surface of the window box while making certain that the corner joints were tight. The window box and added trim were painted with two coats of bright white paint.
- The Pair of Block Terra-Cotta Planters (#4043) were painted with two coats of Glidden's Swiss Coffee #50Yy 83/057 satin paint. The Pair of Block Terra-Cotta Planters (#4043) were painted with two coats of Glidden's Swiss Coffee #50Yy 83/057 satin paint.
