## Notes:

The Boho Retreat is shown on a "lawn" of polyester fleece fabric over a substrate of rigid foam, to allow temporary placement of some landscape items that need to be "planted" with trunks or stems. In a permanent setting, grass sheets such as #1811 or #1813, or Noch Grass sheets (#2130 or #2600), would work well.

The rock garden has a bed of aquarium gravel and a few "driveway gravel" boulders. The vine along the side wall is made with glue-soaked string, arranged on wax paper and dried before painting and adding #1706 Spring Grass as foliage. The fence is made with #39011 Rustic Clapboard Siding Strips and strip wood (#17510 and #17511), all aged with #1073 Fred's Wood Weathering Stuff before assembly. The tree in the background was intended as a Halloween decoration but was repurposed with spray paint (Krylon "Make It Stone" in Black Granite) and clumps of reindeer moss as foliage.
