Crafting Tips

- Sprigs of #25687 Lycopodium were used throughout as seasonal greenery.
- Additional craft items used are: 1/8" red ribbon and Bazzil Basics cardstock in Ruby Slipper red (for runner on sideboard), purchased at Michael's; wire-mounted silver balls used to decorate tree, purchased at Hobby Lobby; and scraps of colored tissue paper for gift bags and card tree wall hanging.
- All stained wood was colored with Kiwi Color Shine liquid instant shoe polish in brown.
- The steps and fireplace were fabricated using various thicknesses of foam core and block rigid foam, faced with paper as needed and painted. Fireplace brick is #88208 Common Brick Latex Sheet, cut to size and painted. Mantel is #17527 Strip Wood, stained as above.
- The village scene on the mantel is set on a base of 3/16" foam core board (purchased at Dollar Tree), cut to size/shape and sanded to soften the edge. The houses and trees are fitted into depressions created by cutting away the top layer of paper and compressing the foam.
