Crafter Extras:

The fireplace grate was made from the Widow's Walk Black Fencing (#24111). One piece was cut to fit the width of the firebox (#2022). A second piece was cut to half that width and centered over the first piece. Both were glued together. The whole assembly was then painted with two coats of gold metallic acrylic paint.

The coffee table started out as our Unfinished Farm Table (#58658). Sawing some length off the ends brought the table down to sofa height.
